SHAHABAS

[MERN STACK DEVELOPER]

Mabela,Muscat Call:98338746 | Email: shahabasbaba123@gmail.com

PROFESSIONAL SUMMARY

Passionate and results-driven Computer Science graduate with a Master's degree, seeking an entry-level software engineering role. Completed an internship as a MERN Stack Developer with a strong foundation in full-stack web development. Skilled in communication, collaboration, and technical documentation, with a track record of academic and extracurricular achievements.

EXPERIENCE

♦ **TELESALES EXECUTIVE at Alnoor Company Mabela 2024**

- Made outbound sales calls to prospective customers and explained products /services
- Managed customer and lead data,follow up's and status updates using zoho CRM
- Maintanied accurate call records and deal updates
- Assisted in preparing invoices.

♦ **MERN Stack Developer (Internship)**
Softroniics Kerala 2023-2024

- Built a full-featured e-commerce web application using MongoDB, Express.js, React, and Node.js.
- Designed and implemented front-end components with responsive UI using React.
- Developed RESTful APIs for product and user management.
- Collaborated in an Agile environment and participated in code reviews.
- Gained hands-on experience in full-stack development, deployment, and debugging.

SKILLS

- Programming Languages: C, C++, C#, JavaScript, HTML, CSS
- Frameworks & Libraries: React, ASP.NET (basic), Python (familiar)
- Databases: MySQL, MongoDB
- Tools: Visual Studio Code, Microsoft Office Suite, Zoho CRM
- Sales skill: Telesales, Lead Management, Sales Follow-up's, Customer handling, Data Entry
- Strengths: Quick learner, smart worker, strong communication

LANGUAGES

- English – Fluent
- Arabic and Hindi – Proficient in reading and writing
- Malayalam – Native

EDUCATION

Master of Computer Science

CCSIT Manjeri, Calicut University | 2016 – 2018 | (73%)

Completed a comprehensive curriculum focused on advanced programming, software engineering principles, database systems, and emerging technologies. Developed strong analytical and problem-solving skills through academic projects and collaborative work.

Bachelor of Computer Science

IHRD Malappuram, Calicut University 2013 – 2016 (84%)

Gained a solid foundation in computer science fundamentals including algorithms, data structures, and web development.

Higher Secondary Education 2011 – 2013

ACADEMIC PROJECTS

Office Automation System

Technologies Used: ASP.NET, C#, MySQL, Windows Forms

Description: Developed a desktop application to streamline office operations such as attendance tracking, task assignments, and internal communication.

Responsibilities:

- Designed the relational database schema
- Implemented modules for employee management and task scheduling

Outcome: Reduced manual administrative work and improved operational efficiency.

Fuel Management System

Technologies Used: ASP.NET, MySQL, HTML/CSS

Description: Web-based system for tracking and managing fuel usage within a petrol pump.

Responsibilities:

- Built the user interface for fuel logging
- Integrated reporting features for fuel usage analysis

Outcome: Helped identify usage patterns, minimized fuel misuse, and reduced manual calculations.

E-Commerce Website (Internship Project)

Technologies Used: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Description: Created a full-featured online shopping website with product browsing, user authentication, and cart functionalities.

Responsibilities:

- Developed a responsive front-end using React
- Built RESTful APIs using Node.js and Express
- Connected the front-end to a MongoDB backend

Outcome: Successfully deployed a functioning prototype as part of a team during the internship at Softroniics.
